FLOWER SEEDS

Do you want the best? California is where they are grown and I have made arrangements with one of the very largest growers in

the State which enable me to make quotations on request on high-class flower seed of any kind grown here. Send me a list of your wants.

ROSES

The following is a condensed list of varieties still available in 2-year-old, budded roses.

If you wish descriptions which are omitted here for lack of space refer to list 22-F of June 10, 1922 or write for a copy of it.

I also handle a full line of roses on own roots and will make quotations on request.
